

Welcome
to the
Pilot Center

A unique experience for ALL!

Fly away with our Airbus 320 and F-16 simulators and drive off with our F1 full motion simulator

Airbus 320

With the **Airbus 320 simulator**, you get to be the Commander, while an experienced pilot is next to you as a Co-Commander, so you can experience a flight as close as it gets to the real thing.

Fly the Airbus 320 and make your dream come true!

FALCON F-16

Give yourself the chance to feel like a real fighter pilot. The **Falcon F-16 fighter** simulator has most of the functions of a real F-16, such as Mach speed, shots, dives, tracking. Multiple scenarios can be applied, based on level of experience.

Experience the speed and live your inner self "Top Gun"!

Formula1

The **Formula F1 simulator** is an exact replica of a real racing car. You get to drive in the same conditions that pilots experience during a real race.

Just make yourself comfortable and let the adrenaline overwhelm you.

How fast can *YOU* go?

UNIQUE CORPORATE EVENTS

Try something different and bring your people together to enjoy a unique simulation experience. Observe ...

- How people collaborate
- How people react under pressure
- Who wants to get out from the comfort zone
- How much of a hidden talent can you discover

And more by having real fun!
